## Objective

I am looking for a position where I can apply and expand my knowledge of computer science. I want to be part of a team that's building something cool and has the same love for technology that I do.

## Experience

**MSU Capstone - Team Amazon** East Lansing, MI, January 2016 - May 2016

**Team Member**, Senior Capstone course where I was one of 5 students working for Amazon. We developed an improved Twitch.tv streaming website with new functionality utilizing API's, an SQL database, and a Google Chrome Extension.

**Smart Homes and Smart Offices** Okemos, MI, April 2015 - May 2016

**Programming Intern**, Summer internship that turned into a part-time job during the school year. Worked on Microsoft Access database front and back end, built a Sharepoint website, data mining project, and various Wordpress websites. I also trained a new intern who worked beneath me.

**Digital Humanities and Literary Cognition Research Lab** East Lansing, MI, September 2014 - December 2014

**Programmer**, Part of a research team at Michigan State where I processed eye-tracking data from an experiment trying to better understand what happens inside the brain when people read.

**Herman Miller Inc** Holland, MI, May 2014 - August 2014

**Manufacturing Operator**, Working in a large manufacturing plant. Responsibilities included troubleshooting problems on the assembly line, verifying orders, adjusting pace of production to meet quotas and making sure the line never stops.

## Education

**Michigan State University** East Lansing, MI, August 2012 - May 2016

B.S. Computer Science and Engineering with Business cognate. Graduated Spring 2016.

Semester abroad in Copenhagen, Denmark at Denmark Technical University (DTU) Spring 2015.

**Catholic Central High School** Grand Rapids, MI, August 2008 - May 2012

Graduated Spring 2012.
